# RIDE AND SHINE.

**The Astra Notchback stays true to inspired Astra design.** The dynamic front and elegant contours ensure the exterior is a real eye-catcher. And with its welcoming interior, the Notchback radiates style inside and out.

# IMPRESSIVE ELEGANCE INTELLIGENTLY PACKAGED.

Spacious and stylish, the Astra Notchback makes a statement – and makes driving a pleasure. And there's plenty of room for your luggage under that remarkable tailgate.

The image shows the interior of a car, focusing on the dashboard and center console area. A large yellow rectangular box is overlaid on the right side of the image, containing the main headline. The car's interior is light-colored, and a window is visible in the background, showing a bright outdoor scene.

# MAKE EVERY DRIVE A MOVING MOMENT.

**Every ride in the Astra Notchback comes premium-wrapped, whichever interior package you choose.** Driver and passengers are cocooned in a roomy, beautifully laid-out cabin designed with just one priority: you. Enhanced materials and the ergonomic dash layout add to the sense of well-being. You can choose a heated steering wheel and even upgrade to ergonomically designed sports seats with AGR<sup>1</sup> certification. Or fit Bluetooth®-capable infotainment to keep you connected – and in a good mood.

<sup>1</sup>AGR seats are certified by the German AGR (Campaign for Healthier Backs), a centre of excellence for ergonomics. The certificate is a seal of quality awarded by an independent testing committee made up of experts from various medical disciplines.

# TOP-NOTCH.

The Astra Notchback blends German-engineered quality with interior space and technology. Standard equipment includes air conditioning, Cruise Control with speed limiter, electric windows front and rear, and an aluminium bezel on the steering wheel. You can add optional 17" alloys, energy-efficient LED Daytime Running Lights, a sunroof and much more.

**1. CD 400 Plus stereo CD radio.** The Notchback comes with the CD 400 Plus stereo CD radio as standard. This six-speaker, 4x20 W sound system includes a Dynamic Sound Processor, six sound presets and speed-dependent volume and bass control.

**2. 16" steel wheels.** A stylish cover gives these big rims a smart finish to match the design of your Astra.

**3. LED Daytime Running Lights.** LEDs are more energy-efficient, last longer and look better than the halogen equivalent – three good reasons to opt for them.

Image on opposite page may show optional equipment.

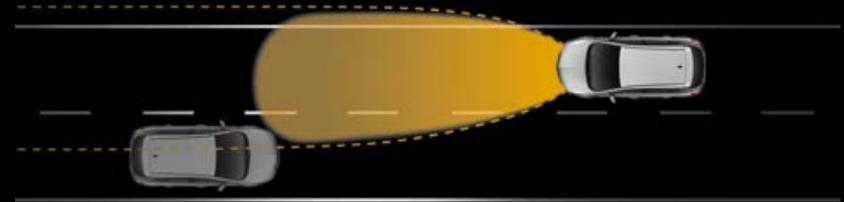

## ➤ HEADLIGHTS WITH FORESIGHT.

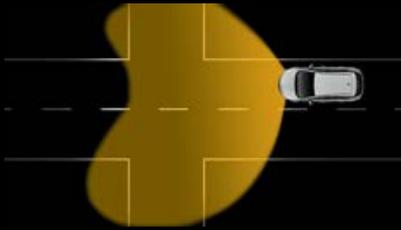

Intelligent driver aids are the hallmark of the Astra. One great example is the headlight technology Bi-Xenon Adaptive Forward Lighting Plus (AFL+), the third generation of the AFL system from Opel. AFL makes driving at night just as easy as during the day. It uses a front-mounted camera, a rain sensor and steering angle input to improve visibility and safety, automatically adjusting the direction and strength of your headlights to suit different speeds, manoeuvres, weather conditions and traffic situations.

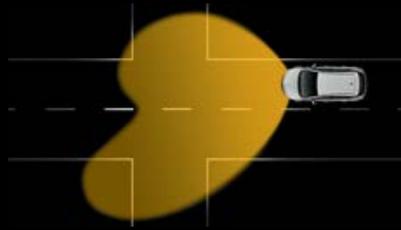

**LED Daytime Running Lights.** The optional intelligent AFL+ headlight system comes with energy-efficient LEDs that make your car more visible to other road users.

**High Beam Assist (HBA).** Part of AFL+ and optionally available also for halogen headlights, HBA makes driving at night safer and easier by automatically dipping your headlights when it detects other vehicles ahead. It switches the lights back to high beam when the road is clear.

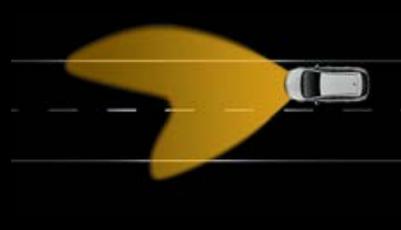

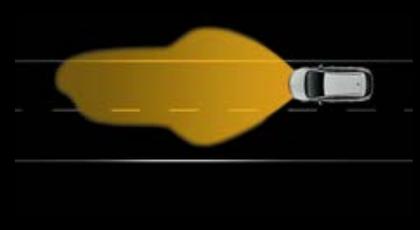

**Pedestrian Area Light (up to 30 km/h).**  
Highlights potential hazards with a wider spread of light (an extra 8° left and right).

**Town Light (30–55 km/h).** Spreads the light wider and lower. Activated by vehicle speed and street lighting.

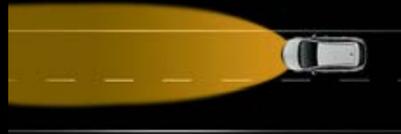

**Country Road Light (55–115 km/h).**  
Wider and brighter than normal, for a 70-metre dazzle-free beam.

**Highway Light (over 115 km/h).**  
Raises, brightens and extends the beam to 140 metres – without blinding other drivers.

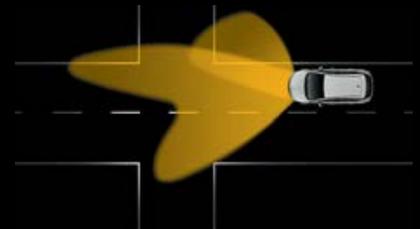

**Adverse Weather Light (up to 70 km/h).**  
Activated by wipers or a rain sensor, this setting improves vision in wet weather.

**Increased High Beam.** Thanks to Bi-Xenon technology, Increased High Beam boosts the range and brightness of your headlights by up to 15% when they're not dipped.

**Dynamic Curve Light (any speed).**  
The headlights turn into the curve by up to 15°. Activated by steering angle and speed.

**Static Cornering Light (up to 40 km/h, also works in reverse).** Throws light 90° to the left or right, so you can see better what's around the corner.

## ➤ TAKE A RIDE ON THE SAFE SIDE.

When it comes to safety, the Astra Notchback has got you covered. In addition to comprehensive restraint systems, you can rely on a whole raft of active and passive safety technologies to make driving more convenient and give you peace of mind.

**Systematic safety.** In the Astra Notchback, you are surrounded by a high-strength steel rigid passenger cell as well as front, side and curtain airbags. ISOFIX anchors for child seats are fitted as standard. The standard Tyre Pressure Monitoring System (TPMS) helps you keep your tyres at a safe pressure without having to stop for unnecessary checks – a telltale in the centre console warns you if pressure is low. The top-of-the-range TPMS will even tell you which tyre needs pumping up, how much air to put in and display a warning in the instrument panel directly behind the steering wheel.

**1. Active headrests.** By moving towards you when they detect a collision, these intelligent headrests cushion your head and neck, helping to reduce the effects of whiplash.

**2. Rear View Camera (RVC) and display.** The RVC gives you a clear view of the area behind the car on your high-resolution infotainment screen, enabling you to reverse smoothly and safely without turning your head.

**3. Hill Start Assist (HSA).** HSA lets you start and park easily on steep hills. For a few moments it automatically holds the brakes for you, to stop you rolling unintentionally backwards or forwards into obstacles or other vehicles.

## > WE'VE GOT YOUR BACK.

The designers and engineers behind the Opel Astra Notchback put a lot of thought into even the smallest details and it's those details that make all the difference to ride quality and to your well-being. In addition to sophisticated standards like Watt's link suspension<sup>1</sup>, the Astra gives you all the options, from dual-zone air conditioning and a heated steering wheel to ergonomic, heated – and very cosy – seats.

**Ergonomic AGR sports seats.<sup>2</sup>** Certified by the German AGR (Campaign for Healthier Backs), centre of excellence for ergonomics, AGR sports seats come with a wide range of adjustment possibilities, including lumbar support and seat cushion extension, that let you perfectly fine-tune your seating position to your individual requirements.

#### **Electric parking brake and centre armrest.**

The push-button electric parking brake is more than a quick and easy way to apply the handbrake. It gives you the added support of an adjustable armrest in the front. The armrest is also available as part of the optional centre console and includes two cupholders as well as a closed storage compartment.

#### **Heated leather steering wheel.**

Keep your hands warm in a cold snap and enhance your grip with this optional leather-bound wheel. It's the perfect add-on for optional heated front seats.

#### **Superior Watt's linkage rear suspension.**

If you like to push your car hard through corners, Watt's link delivers maximum grip and a stable ride on curvy roads. It stabilises the rear axle by reducing unwanted lateral movement.

<sup>1</sup> Standard only with specific engines. For more details, please contact your Opel dealer. <sup>2</sup> Optional.

## ➤ GET SMART.

IntelliLink technology brings the most important functions of your smartphone and other mobile digital devices into the Astra and allows safe and intuitive operation via voice or steering wheel control.

**1. Navi 950 IntelliLink.** This top-of-the-line navigation system gives you all the advantages of IntelliLink technology for extensive smartphone integration – including audio streaming via Bluetooth® – plus navigation with bird’s eye view in 3D and one-shot voice recognition for destination entry.

**Navigation and map configuration.** For faster routing, the maps for more than 30 European countries are internally stored and can be updated via USB.

1.

**2. CD 600 IntelliLink.** By seamlessly integrating your smartphone with IntelliLink technology and displaying the most important functions on the high-definition 7" colour display, the CD 600 IntelliLink sets new standards for convenience, connectivity and safety. Make calls, audiostream your music via Bluetooth® or with Gracenote® file management via USB and view pictures uploaded via USB. Your hands always stay on the steering wheel thanks to integrated controls.

**3. AUPEO!® app.** With AUPEO!® preinstalled on IntelliLink units, you get access to news, sport, podcasts and music via Internet radio.<sup>1</sup>

**Text message readout.** For increased safety, incoming text messages are delivered vocally when you're on the road with the possibility to call back or send a predefined message. They are also shown in the display, but only when the car is stationary.

<sup>1</sup>Function smartphone-dependent. Please check availability for your smartphone in the app store.

**YOUR PERSONAL CONNECTIVITY  
AND SERVICE ASSISTANT.**

Opel OnStar<sup>1</sup> gives you an incomparable feeling of safety, 24/7, 365 days a year.  
You can access our unique services at the touch of a button, virtually anywhere in Europe.

Best of all, it's free of charge for the first 12 months!<sup>2</sup>

**Driving will never be the same.**

# WHAT ONSTAR CAN DO FOR YOU.

## Automatic Crash Response.

In the event of a crash, built-in vehicle sensors automatically alert an OnStar advisor, who will be immediately connected to your car. The advisor will assess the situation and if needed notify the emergency services and provide them with your exact GPS location.<sup>1</sup>

## Wi-Fi Hotspot.<sup>1</sup>

In the future, you will be able to enjoy the benefits of fast and stable Internet access on board, with an integrated Wi-Fi Hotspot<sup>1</sup> for up to 7 devices.<sup>1</sup>

## Smartphone App.

At the touch of a button, remotely lock/unlock your doors, check your oil life or honk the horn and flash the lights.<sup>1</sup>

## Stolen Vehicle Assistance.

If someone steals your car, call our OnStar advisors and give them the reference number the police gave you. The advisor will then provide the police with the location and prevent your car from being restarted so it can be recovered.<sup>1</sup>

## Vehicle Diagnostics.

Whenever you want, you can ask OnStar to remotely check some of the key systems of your car like engine, transmission, emissions or airbags. If you wish, OnStar can also send you a monthly e-mail with those key data.<sup>1</sup>

## Destination Download.

Searching for an alternative route, a restaurant, a petrol station or anywhere else you might need? Just press the Service Button! Our advisors will provide you with the address. They can automatically download the location to your Opel's navigation system.<sup>1,3</sup>

# YOUR PRIVACY. YOUR CALL.

YOU are in control of what OnStar can and cannot do!

- Once you've registered and activated OnStar, you can access every OnStar Service. To ensure security, several services will ask for your PIN.
- Press and hold the Privacy Button for approximately 5 seconds to mask your car's location at any time. If you change your mind, press the Privacy Button again for approximately 5 seconds to reveal your location. Only in emergencies<sup>4</sup> can OnStar override this.
- OnStar will never sell your information on. Your information will only be disclosed to OnStar and GM Holdings LLC (USA), its affiliate companies (e.g. Adam Opel AG), your selected/preferred dealers, companies involved in providing or carrying out the OnStar Services and, at your request, to other service companies.

<sup>1</sup>The OnStar Services require activation and are subject to mobile network coverage and availability. Wi-Fi Hotspot service is not available in all countries. Regarding Wi-Fi Hotspot availability in your country, please visit [www.opel.com/onstar](http://www.opel.com/onstar) and consult your local Opel retailer. Wi-Fi Hotspot service requires account with nominated network operator. Charges apply after the free trial period. The OnStar subscription packages could be different from the services included in the free trial package. Check [www.opel.com/onstar](http://www.opel.com/onstar) for details of availability, coverage and charges, or ask your Opel retailer. Terms and conditions apply. <sup>2</sup>Excluding Wi-Fi Hotspot services – for availability and applicable free trial periods for the Wi-Fi Hotspot services, please check [www.opel.com/onstar](http://www.opel.com/onstar) <sup>3</sup>An embedded Opel navigation unit and map data are requirements for this service. <sup>4</sup>In events such as a crash or if your vehicle is stolen.

# HOW CAN I GET ONSTAR?

OnStar is available as an option on the Opel Astra Notchback.

## To get it:

1. Request OnStar when you order your new Opel Astra Notchback.
2. OnStar will send you an e-mail invitation so you can activate your account.
3. Complete your registration and set up your preferences.
4. OnStar is ready to go!

After the 12-month free trial period, you can decide to order a continuation of the OnStar Services. This will be subject to a fee.

To find out more, visit [www.opel.com/onstar](http://www.opel.com/onstar)

Illustration exemplary.

# HOW MYOPEL SERVICES DO MORE FOR YOU.

myOpel is your one-stop shop to manage everything to do with your Opel – from your OnStar account to organising your vehicle's next service to rewards and exclusive offers. Everything is targeted to you and the Opel you drive.

- Manage your Opel – take care of your Opel online, book a service and track service history.
- Access your OnStar Services – get diagnostics reports, manage your subscription and more.
- Exclusive offers – stay up to date on special offers, latest news and current events.
- Dealer locator – find your nearest Opel retailer.

If you already are an Opel OnStar customer, you can access all the myOpel services. Otherwise, you can register for myOpel by following these easy steps:

1. When you order your car, your dealer will go through a simple pre-registration with you.
2. We will send you an e-mail invitation so you can activate your account.
3. Complete your registration.
4. myOpel is ready to go!

To easily access myOpel from your smartphone, just download the app from the Google Play Store or from iTunes.

# > ACCESSORIES.

Your Astra Notchback is engineered to handle just about anything you ask of it. But when your life changes and there's something special you need on top, the broad range of optional Astra extras and accessories means you're likely to find it.

**1. Door sill plates.** Get a feel for the fine interior the moment you open the door.

**2. Privacy shades.** Tailor-made for all three rear windows, these are easy to install and even stay in place when you open the windows.

**Take a trip.** For the full range of Astra accessories, go to our online shop at [www.opel-accessories.com](http://www.opel-accessories.com)

**3. Protection foil kit.** Keep your Astra in top shape. The transparent foils protect the paint on the front bumper, bonnet, doors and side mirrors – and can be removed without damaging the paintwork.

**4. Roof base carrier with Thule roof box.** Whether you're playing sport, going on a family holiday or simply like making the most of your time outdoors, the Thule roof box should take care of anything that doesn't fit in the boot.

# > AT YOUR SERVICE.

---

Keep your car tidy and your rear passengers happy. With Opel's modular FlexConnect system, you can easily attach a wide range of convenient features to the back of your front seats.

**1. FlexConnect coat hanger.** Your jacket stays in perfect shape and is easy to pick up when you arrive.

**2. FlexConnect hook.** With this universal hook, you can hang shopping bags neatly behind your front seat.

**3. FlexConnect picnic table.** This stable folding table with integrated cupholder makes space for your rear passengers' food, drinks and personal items.

**4. FlexDock® with universal smartphone holder.** The intelligent option for accessing your smartphone or portable sat nav in the car. Mountable on the dashboard, it's compatible with most current smartphones.

**5. FlexConnect iPad holder.** For more entertainment on the rear seats, you can easily turn the holder 360° to accommodate portrait and landscape formats. You can mount it high up for movie mode, or lower for reading and typing. Dedicated holders are available for iPad and iPad mini.

# ▶ ENGINES AND TRANSMISSIONS.

The quality of Opel engines is another convincing argument for the Astra Notchback. Whichever one you choose, reliable engineering is guaranteed. The extra-efficient 1.6 l units come with the ecoFLEX Technology Pack and Enhanced Eco Drive Assist that cut your CO<sub>2</sub> emissions as low as 94 g/km for the 81 kW (110 hp) diesel variant. The powerful 103 kW (140 hp) 1.4 Turbo LPG runs on both petrol and autogas.

## ENGINES AND TRANSMISSIONS

All information was accurate and up to date at the time of going to print. The company reserves the right to alter engine specifications at any time, which may influence the content of the shown data. Please consult your Opel dealer for the latest information. All figures quoted relate to the EU base model with standard equipment. Fuel consumption data and CO<sub>2</sub> emission data are determined according to regulations R (EC) No. 715/2007 and R (EC) No. 692/2008 (in the versions respectively applicable), taking into consideration the vehicle weight in running order, as specified by the regulations. Additional equipment and factory-fitted options may lead to slightly higher results than the stated consumption and CO<sub>2</sub> figures. The figures for fuel consumption and CO<sub>2</sub> emissions do not relate to a specific vehicle and are not part of an offer. They are provided only for the purpose of comparison between different vehicles but may differ from the actual fuel consumption achieved in real-world driving conditions which are greatly influenced by driving style and operating conditions. Additional equipment and factory-fitted options may increase the weight of the vehicle when empty and in some cases the permissible axle weights as well as the permissible total weight of the vehicle and reduce the permissible towing weights. This may lead to a reduction in top speed and increased acceleration time. Driving performance figures assume a 75 kg driver plus a 125 kg load.

## TYRE LABELLING

<sup>1</sup>Optional. <sup>2</sup>Available with petrol engines. <sup>3</sup>Available with diesel engines. <sup>4</sup>Wheel comes standard.

# ➤ OPEL SERVICE.

**Quality at Opel means much more than automobiles with superior engineering.** With our comprehensive service programme we also guarantee our customers our high quality standards after they have bought their car.

**2-year new vehicle warranty.** This warranty applies to any new Opel car for a period of 24 months without any mileage restrictions, as from the day on which it was delivered to the customer by the selling Opel dealer.

**Parts and accessories service.** Opel parts and accessories are available at your local Opel Shop, where you'll find everything to make your vehicle more comfortable or to meet your individual needs, as well as expert advice.

**12-year warranty against corrosion.** Opel provides you with a reliable long-term warranty against perforation, provided you have your vehicle serviced and all necessary inspections performed according to the service booklet.

**3-year warranty for Opel batteries.** With a 3-year warranty for service-installed Opel original batteries your starting problems are over – even in the coldest winter.

**Opel on the Internet.** Need instant information? At [www.opel.com](http://www.opel.com) you can access a wealth of information on all Opel cars, services and accessories. Get online for Opel news and product updates.

**Recycling.** Information about Design for Recycling, Take-Back points for End of Life Vehicles (ELVs) and the recycling of ELVs can be found on the Internet page [www.opel.com](http://www.opel.com)

**Opel Roadside Assistance.** This mobility service is free of charge for all new Opel vehicles for one year after they were first registered or delivered to the customer by the distributor, depending on which date comes first. No matter where you are, Opel Roadside Assistance is there to help. In more than 40 European countries, round the clock. Offering services such as breakdown assistance, towing, a hire car, hotel accommodation or the organisation of onward transportation, e.g. via rail or air (please see programme conditions). Your distributor or authorised repairer will be happy to offer an extension at your annual service.
